

Love and peace is what we need.

all around the world.

But why do we forget these important things,

why can't we stop shooting.

From Northern Ireland to Irak, everywhere you look,
battles and fights, here and there, will they ever stop?

All these sufferings and injuries in families and homes,

most of them innocent, but without a way out.

Stop shooting and start to live in harmony and peace,

then we will get what we want a life in

Love and Peace.
