

War and Peace

*Blood covered the ground,
Screaming everywhere
-only weapons around
Peace? Nowhere!*

*People were crying and sad
Losing everything they had
fill the others were dead
Not only the soldiers.....*

*More and more were killed
"The land" just for "battles" stands
500 children, 10000 soldiers, every day more.
-where will it end?*

*People were crying and sad
Losing everything they had
All the others were dead
Not only the soldiers.....*

*Shaking hands after years
No more clouds above
People had no more fears
Finally peace and love*

*But nothing is forgotten
Look at the graves-
Peace? Everywhere
-but not in their keep-sakes*
